*Proba orală de verificare a cunostințelor de limba engleză*  
*pentru admiterea în clasa a IX -a cu predarea limbii engleze în regim intensiv*  
*Sesiunea 26-28 iulie 2022*

**BILET NR. 30 - MODEL**

*Read the text and answer the following questions:*

The Sun is at the centre of the planets. Close to it are the inner planets - Mercury, Venus, Earth and Mars. Mercury the planet closest to the Sun, is a cratered rock not much bigger than our Moon. It is incredibly hot and unable to support any kind of life. The atmosphere contains sodium and potassium. Venus is the next planet from the Sun and is about the same size as the Earth. The atmosphere is made up of mainly carbon dioxide. The surface temperature can be as high as 480 degrees Celsius. There is no life of any kind on the planet Venus.

1. What planets are close to the Sun?
2. Which planet is about the same size as the Earth?
3. Why is there is no life of any kind on the planet Venus?
4. Would you like to travel in space? Why? Why not?
